# EDUCATION POINT

Specialized project focused on career  
development of young specialists

Exhibition sector, which presents educational institutions  
with various educational programs for young specialists  
who plan to connect their future career with the polymer  
and packaging industries.

## NEW MEETING POINT FOR SPECIALISTS

### 1 Placement on the collective stand (workplace)

info desk / barstool / a socket / logo placement /  
access to meeting area / 2 exhibitor badges/publication in online  
catalog and visitor guide

### 2 Participation in the Business Program

Prospects and actual development directions, challenges and barriers  
facing the industry, as well as ways to solve them are in the focus  
of attention

### 3 Effective business communications

A meeting point for all parts of the educational process – from students  
and universities to job seekers and representatives of major industry  
companies
